

FORMULA 500
CLEANER / DESCALER

DESCRIPTION:

A versatile, concentrated, non-fuming acid type cleaner descaler designed for use in clean-up of concrete mixing equipment, rust removal and scale removal.

ADVANTAGES:

- **VERSATILE** A blend of acidic cleaning agents and emulsifiers for fast action in dissolving cement, lime, mortar, rust and scale of any type of surface.
- **MILD FORMULA** Contains no harsh hydrochloric, sulfuric or nitric acid. Harmless to all surfaces even paint and rubber in use dilution. Non corrosive to stainless steel.
- **EFFECTIVE** A high concentration blend of acidic cleaners combined with superior wetting agents for fast penetrating action.

SPECIFICATIONS:

APPEARANCE	CLEAR COLOURLESS LIQUID
ODOUR	ODOURLESS NON-FUMING LIQUID
WATER SOLUBILITY	100 %
pH (concentrate)	<2
SPECIFIC GRAVITY	1.24
SHELF LIFE	1 YEAR MINIMUM

APPLICATION:

Use 0.1-0.8 % of **FORMULA 500** per descaling/deliming procedure. Percentage concentration will depend on descaling frequency and water hardness. Consult your Sentinel Local Representative for the most economical and effective percent concentration.
